AN AWFUL HORROR.

The Burning of a Theatre at Exeter, England, in Which 140 Persons Perish in the Flames.

LONDON, Sept. 6.—The victims by the burning of the Theatre Royal at Exeter, last night, were mostly working people. As soon as the flames were extinguished a large force of men began searching for bodies. The stairway leading to the gallery was literally packed with bodies, while at the head of the stairs there were scores of others piled one on the other. The unfortunate victims had rushed to the door when the alarm was given, but found the stairway blocked, and all means of escape shut off.

In a short time the flames had reached them, and they suffered a horrible death. There were pitiful scenes in the burned theater this morning, as friends and relatives of the supposed victims awaited the recovery of the bodies. In many cases, fathers and mothers both perished and numerous children are thus left without the means of support. Several bodies were burned so that only a small cinder remained. The number of persons severely injured is sixty. It is feared the death list will reach one hundred and forty.

JAY GOULD.

It is Thought that He will Gain Control of Mackay's Commercial Cable.

NEW YORK, Sept. 6.—There are now several good reasons for believing that Jay Gould will acquire, within a very short time, not only the telegraph, but Mr. Mackay's commercial cable, as well as the thousands of miles of land lines that Mr. Mackay practically owns. Negotiations leading to the union between the Gould and Mackay interests have been in progress for some time, conducted by Messrs. Gould and Mackay, personally, whenever Mr. Mackay has been in New York, and in his absence, by S. L. M. Barlow, of counsel for Mr. Mackay, and Mr. Green.

WILL TAKE HIS SHOES.

Mr. Samuel Spencer Will Succeed Garrett as President of the Baltimore and Ohio.

BALTIMORE, Md., Sept. 6.—The Baltimore *American* says: "The question as to who shall succeed President Garrett is settled. Mr. John King, jr., who was looked upon favorably, cannot take the postion because he is virtually a trustee of the Erie road, as well as its president. The man whom the syndicate have settled upon as possessing all the requirements for the place is Mr. Samuel Spencer, the present first vice-president of the Baltimore and Ohio road.

Cutting Railroad Rates.

CHICAGO, Ill., Sept. 6.—The Wabash railway yesterday announced the rate of $6 between Chicago and Kansas City, a cut of $6.50, the regular established rate being $12.50. The cut was brought about by the trouble over the harvest excursion rates. The Burlington will follow to-day with the same figure and the Alton and Rock Island will no doubt take some action.

The Blue and Gray.

EVANSVILLE, Ind., Sept. 6.—The reunion of the Blue and the Gray will be held here from September 20 to 23 inclusive. Some of the distinguished exconfederate and ex-union generals have promised to come, as well as prominent lesser officers. The governors of Indiana, Illinois, Kentucky, Tennessee and Georgia, with their staffs, are also expected.

Not Dead Yet.

CHATTANOOGA, Tenn., Sept. 6.—Now comes the news that one Gamble, a prominent citizen of Anniston, Ala, has just returned from an extended visit in the city of Mexico. While there he met Marsh T. Polk on the street and talked with him. Polk is the defaulting state treasurer, who was thought to have been dead for several years.

Death of Dr. Walker.

EVANSVILLE, Ind., Sept. 6.—Dr. Geo. B. Walker, a physician known to the profession all over the union, died here at 2 a. m, from the effects of a surgical operation. He was in his eightieth year and had practiced here for fifty-two years. He was a member of several prominent medical societies.

STYLES OF

A BRAVE SHERIFF

Is Resisted in an Attempt to Arrest Four Desperadoes and He Shoots Them Down.

ST. LOUIS, Mo., Sept. 6.—A special from Albuquergue, N. M., says, the most complete single-handed shooting scrapes that ever occurred in this section transpired yesterday at Holbrook, A. T. Four desperadoes rode into that town yesterday morning from Tonto Basin, named Tom Blivens, Jake Cooper, Charles Roberts and Jim Blivens, all notorious cattle thieves.

Sheriff Owens, having warrants for their arrest, ran upon these men in a little shanty, adjoining the livery stable of Brown and Kinders. He demanded their surrender, which was answered by a volley of shots, but as the men emerged from the shanty, Sheriff Owens shot them down, one by one, killing all of them instantly except young Blivens, the brother of one of the men killed. For months these men have caused reign and terror in the territory of Arizona.

A FIRE PANIC

Among the Dwellers in a Row of New York Tenement Houses.

NEW YORK, Sept. 6.—About 1 o'clock this morning fire broke out in a tenement house on Fiftieth street, this city, causing a frightful panic in that and adjoining buildings. The gas was turned out, leaving the terror-stricken people to find their way out in the dark. With the help of the police and firemen this was accomplished without fatalities, though several of the firemen were seriously injured, and two or three inmates of the buildings were badly hurt.

Mrs. Cleveland Declines.

NEW YORK, Sept. 6.—Mrs. Cleveland has written a letter to the mayor and others declining the invitation to present the flag to be given to the fire department, basing her declination on her unwillingness to assume that she, as the wife of the president, ought to participate so prominently in a public ceremony in which he took no part.

"REJECTED."

That is the Seal the County Commissioners Put on the Spy Run Bridge Bids.

County Commissioners Brannan, Hartman and Gloyd resumed consideration of the proposals on the contemplated Spy Run avenue bridge this afternoon.

The board unanimously rejected the bids for the iron work and deferred action on the abutment proposals until next week.

They need not again advertise for bids on the iron work, but will award the contract on any reasonable proposition submitted to them. This will probably be their course.

Sweet Lemons and Blood Oranges.

Strolling about the neighborhood of the Quincy Market my attention was attracted by the sign, "Blood Oranges, $7.50 a Box," which decorated the exterior of an importer's shop. I had always supposed the blood orange was a freak of nature, to be found semi-occasionally, like a yellow firecracker in a pack of the Golden Dragons brand; but this, it seems, was a mistake, for the dealer assured me that the ruddy fruit was a distinct variety.

"It is artificially produced," he said, "by grafting an ordinary orange tree with the pomegranate. The result is an orange like any other, so far as flavor is concerned, but with red juice that is visible through the skin. It brings a slightly higher price, because it is regarded as a curiosity. The people of Sicily cultivate it mostly. Yes, there are one or two queer kind of oranges I know of. The pine-apple orange, which has something of the pine-apple flavor, is finding its way into the market. Then there is the 'navel' orange, grown extensively in Southern California. It is considered particularly fine, and sells at corresponding prices. The most curious thing about it is the astonishingly accurate imitation of the human umbilicus, which ornaments the extremity farthest from the stem. It is from this peculiarity that the variety takes its name. These navel oranges, by the way, are of the feminine gender, and have no seeds at all.

"I had a few sweet lemons in stock the other day," added the dealer. "They are quite a rarity. People in this part of the world have poor taste in tropical fruit, anyway. They will always pay more for a red banana than for a yellow one, though the former is considered an inferior fruit where both are grown. The lime, too, is far more prized in tropical countries than the lemon, but Northerners think it is only good for pickling."—*Boston correspondence Iowa State Register.*

DR. PETER WOOD, of London, suggested twenty years ago the use of calcined oyster shells to arrest the growth of cancerous tumors, about half a teaspoonful once or twice a day in a little warm water. He again reports that his experience with it has been in several instances satisfactory, but insists that no benefit from it should be expected in less than three months.

HARPER & CO.

The Firms' Trustee Will Pay the Creditors Four Per Cent. on Their Claims.

CINCINNATI, Sept. 6.—From the report of J. H. Stewart, the trustee of E. L. Harper & Co., filed in the probate court, it appears that the firm held no real estate, and that the face value of the assets, consisting of stocks, bonds, notes, cash, etc., was $136,098; while the appraised value was $8,610. The other assets were book accounts of the face value of $1,171,733, appraised at $94,131, making the total appraised value of the assets of $103,202. The total direct liabilities are $1,462,744. The indirect liabilities as indorsers are $1,692,073. Among the debts is one of $358,000 from E. L. Harper, and it appears that this firm indorsed for Harper's other firms. The firm of E. L. Harper & Co. was an iron commission firm. The showing would give creditors about 4 per cent. on their claims.

Prisoners Before the Bar of Justice Begging for Clemency—Some of Them Get it.

Yesterday afternoon Judge O'Rourke set aside the jury verdict of a jail sentence and fine against John Kelly, the young man who murderously assaulted old Carl Wolf, of New Haven, with a stone. The youth has not served an hour of his former sentence, and is not likely to in view of the court's good feeling, although nine of the jurymen who convicted him, at first voted for three years imprisonment. Mr. Kelly is fortunate, and it is hoped he will profit by his experience, because the court may not always look on his punishment as excessive.

James Hartnett was this morning indicted by the grand jury for the theft of books and valuables from the office of J. M. Robinson. The poor fellow made an eloquent plea in his own defense, but it did nat save him, and Judge O'Rourke sentenced him to one year in the penitentiary. Hartnett is a newspaper writer, and will be recalled as the man employed by Nelson & Morss to write the expose of John Spice, who was then county superintendent of the poor. He is friendless, and a wreck from liquor, with no one to mourn his fate.

Frank Merriweather was indicted for petit larceny. He threw himself on the mercy of the court, and Judge O'Rourke withheld sentence.

Frank Kannada and George Mertz were indicted for robbing Fred Winter of $20, but have not had a trial yet.

SAFE BONDS.

County Treasurer Mowrer and His Deputies Duly Installed.

Yesterday the County Board of Commissioners, Messrs. Hartman, Brannan and Gloyd, approved the bond of County Treasurer Mowrer in the sum of $300,000, with the solid sureties heretofore published in THE SENTINEL.

Mr. Mowrer at once took the oath of office, and is now duly installed in charge of the county funds, with a convenient box of cigars for his callers and friends.

His pleasant and courteous deputies, Mr. Cass Hunter and Mr. Tom Greer, jr., at once filed their bonds with Treasurer Mowrer, in the sum of $50,000 each, and are doing honors behind the desk.

Mr. Hunter's bond is signed by L. P. Hunter, J. C. Hunter, Frank Greenwell, N. C. Glazier, D. B. Andrews, John Dalman, Thomas Greer, Charles McCulloch, Preston Chapman, Robert Romey, Luther Greenwell, Fred C. Boltz, Jerome D. Gloyd, Henry Hartman, Sam. Miller, Andrew F. Glutting.

The bondsmen for Mr. Greer are as follows: Thos. Greer, sr., John Dalman, John Beighler, D. A. Robinson. Edward Kinerk, William Kinerk, John Ferguson, George Ranner, David Welbaumn, Jacob Lintlag, Andrew F. Glutting, Daniel Kelley, Charles Dalman, Preston Chapman, George H. Viberg, L. C. Hunter, William Spencer, George Buskirk.

The documents, as can be seen, are sufficient, and quite complimentary to the integrity of the young men.

THE NATURAL GAS PROJECT.

The commendable zeal of the gentlemen who are most active in forwarding the project to organize a "People's Natural Gas and Supply Company," has thus far been rewarded by a stock subscription of less than $50,000. This is a very small proportion of the $400,000 absolutely required to insure the success and consummation of the ends we all so devoutly sought to accomplish—that is, the furnishing of a natural gas fuel to the industries and people of Fort Wayne at a price reasonably low to consumers and justly profitable to the capital invested.

The original idea was to make the company a general or popular affair, inviting everyone to invest in the corporation, that its blessings might be twofold—first, in insuring us cheap fuel, second, in guaranteeing a safe profit to the stockholders.

Realizing the impossibility of interesting sufficient local capital to form the corporation, the heaviest supporters of the project, at a meeting of the Business Men's exchange, last night, evinced a disposition to eliminate from the by-laws read by Judge Chapin, the restrictions as to the profits and surplus of the company, with a view, as they said, of inviting foreign capitalists to invest their money in the proposed organization.

It will be seen at a glance that if the profits and surplus of the company are not limited and restricted, every safe-guard for the insurance of a cheap gas fuel is wiped out.

In view of the hardships encountered by the committee in soliciting a stock subscription of $40,000, it is fair to presume that not much more than $100,000 in all can be raised in Fort Wayne. The remaining $300,000, if secured, must come from abroad.

With these facts before us, and the situation is placed fairly, THE SENTINEL can see no reason why it is not the wisest plan to invite foreign companies to undertake, altogether, the task of piping and supplying Fort Wayne with natural gas.

The citizens would be just as much at the mercy of a foreign company holding a controlling interest in an unrestricted so-called local company as it would be at the hands of an outside corporation holding every dollar of stock.

Is it not more advisable, anyway, to invite capital from abroad into Fort Wayne, leaving the home money market free to operate in the building up and fostering of local industries? It certainly is not desirable to tie up all the available money in Fort Wayne in a gas company, because it will deprive us of the elements of progress and prevent the people from reaping the benefits of any boom natural gas would give us.

These observations are worthy of serious consideration.

ONE of the most prodigious engineering projects now on the tapis is that for tunneling the Rocky Mountains under Tray's Peak, which rises no less than 14,441 feet above the level of the sea. It is stated that 4,411 feet below the peak, by tunneling from east to west for 25,000 feet direct communication would be opened between the valleys on the American slope and those on the Pacific side. This would shorten the distance between Denver in Colorado and Salt Lake City in Utah, and consequently the distance between the Missouri River, say at St. Louis, and San Francisco, nearly 300 miles, and there would be little more required in the way of ascending or descending or tunneling mountains. Part of the work has already been accomplished. The country from the Missouri to the foot of the Rockies rises gradually in rolling prairie until an elevation is reached of 5,200 feet above the sea level. The Rockies themselves rise at various places to a hight exceeding 11,000 feet. Of the twenty most famous passes only seven are below 10,000 feet, while five are upwards of 12,000, and one is 13,000 feet. The point from which it is proposed to tunnel is sixty miles west from Denver, and although one of the highest peaks, it is by far the narrowest in the great backbone of the American continent.

ARMAND CARREL, to whom a monument has just been erected at Rouen, had a stormy career. He was adventurous from the moment that he left St. Cyr until he was shot by Emil de Girardin, who swore on the tomb of his adversary never to fight a duel again. When fighting in Spain in the Foreign Liberal Legion, which was composed of Frenchmen and Italians, the Colonel, an Italian, thought he saw the French waver, and said so. "You lie," retorted Carrel, and charged with his men like a maniac. A year afterward he was tried by court-martial and was about to throw a chair at the President, when he was carried out of the court by soldiers.

The Most Agreeable.

MORNING ECHOES.

What Was Seen and Heard by the Sentinel Scribe During an Early Morning Stroll.

The Bass works took several new men into their employ yesterday.

The men in the shops are beginning to complain again of the hot weather.

George Harrison is now stroker for the the stationary engine at the Pittsburg car shops.

John Gribben has been promoted to the position of an axle turner at the Pittsburg car shops.

The Bass works shipped a high speed engine and a large band saw mill to California this morning.

Gust Hockins, who is employed in the office of the Kerr Murray foundry, is at Chicago spending his vacation.

Master Mechaeic Bradley, of the Grand Rapids road, was in the city yesterday and a visitor at the Bass works.

A. Beach, the machine hand in the Pittsburg car shops, who has been sick for several days, returned to work this morning.

John Phepps, the conductor on the Pittsburg, Fort Wayne and Chicago road, is detained at home by the sickness of his children.

John Little, an employe in the Olds works, who has been sick with typhoid fever for some time, has recovered and taken his position again.

Jacob Hass, of the Bass foundry, who was married at Logansport, Ind., last week to one of the young ladies of that place, has returned with his bride, and taken his position in the works again.

Alexander Steel, an employe of the Bucyrus Manufacturing company of Bucyrus, O., was in the city for a few hours to-day, on his way west, and visited his cousin, Henry Kelker, at the Pittsburg boiler shops.

Ernest Geerker, an employe in the Pittsburg car shops, while loading a car with car wheels, this morning, had his thumb smashed and was compelled to quit work. He will be detained from duty by the injured member for a few days.

J. C. Kensill, of the Pittsburg shops, who is a member of the city council, was off duty yesterday afternoon attending to councilmanic duties. He was one of the committee appointed by the mayor to make estimates for the Griffith street sewer.

Cyrus Burket, a machinist in the Bass works, has gone to Evansville, Ind., and will wed one of the fair young ladies of that city before his return. Evansville is his old home and his frequent visits to that place are now clearly understood by the boys. He will return this week with his bride.

Last night while Will Linderman, one of the boys in the Bass foundry, was at work in the new moulding rooms, his overalls took fire by coming in contact with the lamp, and would have resulted in a serious accident, had not Harry Hayes, another employe, turned the hose on him and given him a good soaking with water.

J. H. Sloan, the genial and popular clerk at the Pittsburg machine shops, still insists that the machinists can beat the boiler makers in a fair, square game of base ball. He says the boiler makers won their victory more by good luck than by good playing and if the game is repeated, as it will be, the machinists will score an overwhelming victory and simply crush the boiler makers out of existence. "Jim" stands by the machinists and is confident of their ability to win.

"What has become of your shop items?" said an employe of the Pittsburg shops this morning. "Why, nothing has become of them," answered our reporter. "They are still in THE SENTINEL every evening with a new head, however, and this is probably the reason you have not noticed them. People never change their heads. They carry the same old head all the way through life and if it happens to be a poor one they can't change it, but THE SENTINEL can change its head to this column whenever it wants to. 'A rose by any other name will smell as sweet,' so this column will remain the same, although it may have have a different head."

THE SENTINEL is meeting with favor among the employes in the various industries of the city and many of them are handing us their names as subscribers. THE SENTINEL reporter will not solicit subscription while he is on his rounds in the collection of news, but if any of the employes desire to hand him their names as subscribers he will gladly jot them down on his note book and see that they get THE SENTINEL by the time they return to their homes in the evening. In this connection we will also say that any item of personal news about yourself, your family, your friends or your neighbors, will be gladly published if handed to our reporter, while he is on his rounds, or sent to the office.

IT WON'T BAKE BREAD.—In other words, Hood's Sarsaparilla will not do impossibilities. Its proprietors tell plainly what it has done, submit proofs from sources of unquestioned reliability, and ask you frankly if you are suffering from any disease or affection caused or promoted by impure blood or low state of the system, to try Hood's Sarsaparilla. The experience of others is sufficient assurance that you will not be disappointed in the result.

"George, what is the best 10c. cigar in the city?" "The B. & O. of course."

St. Augustine's Studio.

(At St. Augustine's Academy.)

FORT WAYNE, Ind.

This studio is well supplied with excellent studies and paintings, as well as other requirements for effective instruction in perspective, free-hand and crayon drawing, painting in oil, water colors and pastel, china painting, coloring photographs, modelling in clay, decorating ebonized tile, table tops, etc. Portrait painting a specialty. Pupils are divided into small classes so as to secure to each careful attention. sod6t&w1t.

LINO-LEUMS.

This comparatively new, exceedingly durable, and justly popular floor covering, we have greatly reduced in price. We show a Fine Assortment of New Designs.

Handsome Lamps.

The Lamp season is just opening. We sold about 5,000 Lamps last year. We want to beat that record during the year to come. We probably sell more lamps than all the other stores in Fort Wayne combined. It is because we cut prices so very low, and because we keep the largest and handsomest stock. We have purchased some very expensive ones to be used as wedding presents.

Fine Lace Curtains.

Elegant New Styles in Nottingham, Irish Point, French Guipure, Applique, and Brussels Net. Prices very much lower than last season. We are keeping a much Larger and Finer stock of these goods than ever before.

Baby Carriages.

We shall keep a full assortment of these goods all through the fall and winter. We are to-day showing Fifty Different Styles. Our Prices cannot be matched.

Window Shades.

We make and put them up a little prompter, a little better and a little cheaper than anybody else.

and diseases of the

EYE AND EAR

A SPECIALTY.

It is well known by all intelligent observers that it is impossible for any person, no matter how highly endowed by nature or acquirements, to become thoroughly conversant with all the divisions of the science of medicine. Nearly all who have obtained distinction in medicine have made some special department their life work, being fitted therefor by natural adaption or selection, special education and experience. The doctors having devoted several years to the special study of this class of diseases in hospitals and general practice, and having the most recent and improved instruments for finding out diseased conditions in the organs of the body, they propose to devote the whole of their time to the practice of these specialties.

They adopt the following plan, which is peculiar to hospitals and is not or never has been the practice of country doctors, viz: They carefully note the symptoms of the patient, ascertain the condition of the internal organs, examine the eye, ear and throat by the most recent and improved instruments and methods, all of which they carefully record in their register for future references. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and, knowing the changes, they check them with specific remedies and place the patient on the high road to recovery. When sick people consult them, they readily tell them whether they can cure or help them or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will convince the most skeptical. By an examination they will convince any one of the nature and extent of their disease, amount of danger to life and chance of a perfect cure. Believing that science is truth, and "truth is mighty and will prevail," when known and knowing the disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of chronic diseases. The astonishing success and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of the disease by natural remedies. Let those given up by others call for examination. They have successfully treated the following diseases since their arrival in this state: Eye and ear diseases, chronic diarrhœa, chronic inflammation of the womb, chronic inflammation of the bladder, painful or irregular menstruation, fever sores and ulcers, incontinence of urine, tape worms, crooked limbs and enlarged joints, spinal curvatures, club foot, hip joint disease, white swelling, discharging abscesses, sterility or barrenness, nervousness and general debility, prostration and impotency, disease of the kidneys and bladder, leucorrhœa or whites, blotches and pimples, skin diseases, dyspepsia, constipation, dropsy, cancer, epileptic fits, erysipelas, gravel, goitre, gleet, gonorrhœa, hydrocle, heart disease headache, piles, hysteria, syphilis, St. Vitus dance, chronic dysentery, enlarged tonsils, fever and ague, fistula in ano, hernia or rupture, ovarian tumors, paralysis, palsy, prolapsus uteri, bronchitis, asthma, catarrh, scrofula, consumption, chronic cough, female weakness, spermatorrhœa, rheumatism, liver disease, etc.

YOUNG MEN

Who have become victims of solitary vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with full confidence.

DR. FRUTH.

After years of experience, has discovered the surest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach or bowels—those terrible disorders arising from the solitary habits of youth—and secret habits blighting the most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

TO MIDDLE AGED MEN.

There are many from the age of thirty to sixty who are troubled with frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, weakening the system in a manner the patient cannot account for; on an examination of the urinary deposits a ropy sediment will be found and sometimes small particles of albumen will appear, or the color will be of a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases and a healthy restoration of the genito-urinary organs.

PRIVATE DISEASES.

Blood poison, venereal taint, gleet, stricture, seminal emissions, loss of sexual power, weakness of sexual organs, want of desire in male or female, whether from imprudent habits of youth or sexual habits immature years, or any cause that debilitates the sexual functions, speedily and perfectly cured. Consultation free and strictly confidential. Absolute cures guaranteed.

DISEASES OF WOMEN.

We have a special department thoroughly organized and devoted exclusively to the treatment of the diseases of women. Every case consulting our specialist, whether by letter or in person, is given the most careful and considerate attention. Important cases and we get few which have not baffled the skill of all the home physicians) have the benefit of the full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two thirds of our patients being ladies, old, young, married, single, rich and poor. Our methods are entirely free from objectionable features of the general practitioner, namely, "local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

EPILEPSY, OR FITS

Positively cured by a new and never-failing method.

FREE EXAMINATION OF THE URINE.

Each person applying for medical treatment should send or bring from ½ to 4 ounces of urine, which will receive a careful chemical and microscopical examination. Persons ruined in health by unlearned pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately.

REMARKABLE CURES

Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Curable cases guaranteed.

That's So

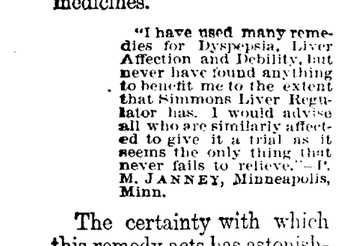
Relief is certain for the despondent feelings of the dyspeptic, the constipated habit of the sedentary, the headaches of the nervous and bilious, by the simple use of Simmons Liver Regulator,—easy to take, not nauseating or disgusting, not more bitter than a glass of beer and far more grateful. It is no intoxicating beverage, but it tones up the system, settles the stomach, assists digestion, regulates the bowels, and stimulates the Liver. Take it once and and you will discard all other medicines.

"I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent that Simmons Liver Regulator has. I would advise all who are similarly affected to give it a trial as it seems the only thing that never fails to relieve."—P. M. JANNEY, Minneapolis, Minn.

The certainty with which this remedy acts has astonished the Medical Profession and secured for itself unbounded praise. Its virtues consist in being so gentle a cathartic, tonic and alterative, that in its operation it does not interrupt the usual duties of life, but acts so naturally that the system is not upset or afterwards constipated. It attacks all bilious disorders and sluggishness of the Liver; is harmless, and can be taken at any time without fear of injury.

"I have been a user of Simmons Liver Regulator for years, having made it my only family medicine. It is a sure, good and reliable medicine. My mother before me was very partial to it."—Rev. JAS. M. ROLLINS, Pastor M. E. Church, Fairfield, Va.

Price $1. Sold by all Druggists. Prepared by J. H. Zeilin & Co., Philadelphia, Pa.



The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

Fighting Fish.

The male stickleback is a prodigious warrior, and when he meets a rival of his own kind he engages with him at once in deadly warfare. Their battles, says Mr. Darwin, are at times desperate, for these puny combatants fasten tight on each other for several seconds, tumbling over and over again, until their strength is utterly exhausted. Bold and pugnacious as they are, however, it is only my lords who thus fiercely contend with one another. Their demure little mates remain always perfectly pacific, gentle, and even-tempered. With the rough-tailed stickleback, the males while fighting swim round one another, biting and endeavoring to pierce each other's mailed skin with their raised lateral spines or lances. Small as they are, their bite is very severe, and inflicts a deadly wound upon their antagonist; and Mr. Noel Humphreys remarks that they use their lateral spines with fierce effect, so that he has seen one brave stickleback during a stout battle rip up his opponent from end to end, till the vanquished hero sank to the bottom and died ingloriously. It is during the moment of battle, and just before and after it, that the colors of all fighting animals become invariably most intense. The reason is plain: battle is joined during the mating season, and "before the face of maidens and of dames;" and, as in human tournaments, the ladies stand by to applaud the conquerors and to reward their prowess. They are themselves the prize of the encounter they stimulate. Besides, the highest physical vigor and the highest excitement bring out the greatest beauty of both men and animals. The angrier you make a mandrill the more vividly tinted are his cheeks and callosities. The frilled lizards and flying dragoons glow with all the brightest colors of the rainbow when you tease or annoy them. The turkey cock swells his crimson wattles and spreads his ruffled feathers to the utmost at sight of a rival or a mischievous boy. There is a little hot-tempered fish known as *Betta pugnax* and kept as a sort of domestic pet by the Siamese (much as the Christian English gentlemen of forty or fifty years since kept fighting cocks) to display its prowess for the edification of the Mongolian intelligence. "When in a state of quiet," says Cantor, "its dull colors present nothing remarkable; but if two be brought together, or if one sees its own image in a looking-glass the little creature becomes suddenly excited, the raised fins and the whole body shine with metallic colors of dazzling beauty, while the projected gill membrane, waving like a black frill round the throat, adds something of grotesqueness to the general appearance. In this state it makes repeated darts at its real or reflected antagonist. But both when taken out of each others sight, instantly becomes quiet." The fighting fishes, as the Siamese call them, are kept in globes like gold fish and fed from time to time with the larvæ or mosquitoes. The Siamese are as wild after their combats as the Malays are for cockfighting, and often stake large sums, or even the freedom of themselves and families, on the prowess and skill of a particular betta. The license to exhibit fish fights is farmed by government and brings in a considerable revenue to the king of Siam.—*The Cornhill Magazine.*

Syrup of Figs.

Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is Nature's own true laxative. This pleasant California liquid fruit remedy may be had of Theime and Gross, druggists, large bottles at fifty cents or one dollar. It is the most pleasant, prompt, and effective remedy known to cleanse the system; to act on the Liver, Kidneys, and bowels gently yet thoroughly; to dispel Headaches, Colds and Fevers; to cure Constipation, Indigestion, and kindred ills.

A Strange Mummy's Head.

A few days ago a well-known dealer in stamps and curios received from Ecuador the head of a South American Indians, which, from all that can be learned, is anywhere from 300 to 400 years old. The curious part of this cranium is the method which was used in its preservation. It had been cleanly severed from the body, and by means of a slit made in the back of the neck all the facial and cranium bones were removed. By what process is unknown. This done, the back of the neck is sewn up, the stitches being visible to the eye, a number of pieces of string run through the lips, and a stout piece of twine passed through the head. In some mysterious way the head was then compressed until it was no larger than any ordinary wax doll's head. The supposition is that then, by means of the cord through the top of the skull, the head was hung up in a vault or some other such place. At present there are only two of these curiosities in this country. The natives, by whom they are looked upon as a kind of god, are reluctant to part with them. The features of this one, which the *World* reporter examined closely, are well preserved and show no signs of decay. There is a luxurant growth of long black hair on the head. The gentlemen in whose possession it is said that he understood that this method was used only in the cases of chiefs or other notables.—*New York World.*

For Animals.

Mange, Distemper, Diarrhœa and worms in dogs quickly cured. Scratches, Sores, Galls, Bruises, Cuts or Wounds of any kind quickly and permanently healed by washing with the fluid. Dr. J. Hough, the distinguished Veterinary Surgeon, says: "I find Darbys Prophylactic Fluid all that it is represented. As a local application I believe it to be without an equal." For Colic and Scours it acts like magic.

"Our Special Customer" is the best 5c cigar in the city.

Something About Corkscrews.

There seems to be nothing to say about a corkscrew. The corkscrew is ubiquitous and necessitous, but who ever stops to think of anything about the history or character of the cork extractor? Yet there is really an interesting article to be written about the little instrument. There are miles of corkscrews made every year. Yes, and a good many millions. It isn't generally known that the corkscrew is made in largest quantities in Newark, Jersey's metropolis; yet such is the case. There is one firm in Newark that beats the world at making and selling corkscrews. I got my information about the little utensil from one of the firm. It is a startling tale he told, and if it wasn't that he had the figures to back what he said, I should have thought his story was as crooked as the wire on the cork extractor he makes. In round numbers there were 150,000,000 corkscrews made by this one Newark firm last year, or corkscrews enough for nearly every voter on the globe. If the corkscrews, which average three inches in length, that were made during the year 1886 could have been laid length to length, they would have reached from New York to San Francisco and then spanned the broad Pacific and touched the shores of Japan. That will give some idea of the number. If all these screws could have been melted into one big screw, some Colossus could have pulled the cork from the surface of the earth and set the geyser spouting and the volcanoes erupting from the interior of the globe. But this was only one firm, although the largest, it is true. Could all the corkscrews made last year be known there must have been enough manufactured to supply nearly every man, woman and child on this mundane sphere with one. To make the 150,000,000 of the Newark firm required seventy-five men simply for the twisting of the screws, to say nothing of the making of the wooden and other styles of handles. They worked steadily the year round at it.

One would hardly think that more than three or four varieties were required, but there are about forty varieties on the market.

The funniest of all the corkscrews is a left-handed one. The first one was made for a left-handed bar-keeper, and it suited so well that the Newark firm now keeps them constantly in stock. Another Newark firm makes 300,000 pocket corkscrews a year. The question naturally arises, what is done with them all? Lots of them are broken, of course. Large New York restaurants, like Delmonico's, the Brunswick, and the St. James, buy corkscrews direct from Newark, and get them by the hundreds at a time. It is no unusual thing for big hardware houses in Newark, Boston, Philadelphia, Pittsburg, Cincinnati, and big western cities to buy 10,000 corkscrews at a time.

Hay Fever.

For twenty-five years I have been severely afflicted with hay fever. While I was suffering intensely I was induced, through Mr. Tichenor's testimonial, to try Ely's Cream Balm. The effect was marvelous. It enabled me to perform my pastoral duties without the slightest inconvenience, and I have escaped a return attack. I pronounce Ely's Cream Balm a cure for hay fever.—Wm. FRUIT HOUSE PRICES FOR '87

Quite a change has taken place in a great many goods the last sixty days, the tendency being in most cases upwards. This is the case, especially in Coffee and Dried Fruits, Sugars, Teas, Syrups, Spices and Tobaccos, have not advanced, but from indications they will. It will pay our customers to purchase liberally.

Sugars—White and Yellow.

Yellow C Sugar, 5½c. Standard A Sugar, 6½c. Granulated Sugar, 7c. Powdered Sugar, 7c. Cut Loaf Sugar, 7c.

NO ADVANCE ON TEAS,

Yet they will not likely remain at such low prices in the face of the large advance on Coffee. We continue to maintain our prestige in the Tea trade. Our trade has grown immensely in that line. People have no longer to send off to purchase their Teas. In order to save money we keep up the plan of buying in large lots of the importers and re-selling direct to our customers at a small profit, thereby saving to our customers the intermediate profits of jobber and wholesale dealer—which is not less than 10 to 20c.

Good, 15c per pound; choice, 30c; best, 50c. Imperial tea—Green, good, 30c; best, 50c, Gunpowder tea, 30c; best, 50c. Oolong or Black tea, 20c, 30c; best, 50c; Japan tea, 20c, 30c; best, 50c. Above prices on teas are the lowest on record and the best teas are of the highest quality—no better anywhere—the other grades are good, sweet, drawing teas and will please the most fastidious tea drinkers. Just give them a trial and satisfy yourself.

Coffee—Rio, Java and Roasted.

Best Rio coffee, 20c, per pound; best roasted Rio, 24c per pound; German coffee, 26c per pound; Housekeepers' Choice, 28c per pound; Dannemiller's, 26c. per cent.

Foreign and Domestic Fruits, Prunes, Raisins, Currents, &c., &c.

Turkish prunes, 5c; figs, per pound, 10c; peeled peaches, 20c; dried cherries, 18; unpeeled peaches, 8c; dried raspberries, 30c; dried apples, 6c; dried blackberries, 15c.

Leghorn Citron, 22c; orange and lemon peel, 15c; Valencia raisins, 8c; bes layer raisins, 12½c; Zantee currants, 8c; shelled almonds, 30c; seedless raisins, 10c.

Candies—Stick, Mixed and Bon Bons.

Pure stick candy, 10c; pure mixed candy, 10c; fancy toy candy, 20c, toy candies, 20c; Brazil nuts, 10c quart; almond nuts, 15c quart; mixed nuts, 15c quart; walnuts and filberts, 12½c quart.

Syrups---Maple and Sugar Syrups and New Orleans Molasses.

Pure Maple syrup, 70c a gallon; golden drips, 40c; Sorghum, 40c; New Orleans molasses, 35c; best, 40c. The sorghum is splendid and 10c lower than we ever sold it before.

WINES AND LIQUORS FOR MEDICAL PURPOSES.

Old 76, $2.50 per gallon; two years old, $1.75; one year old, $1.40 per gallon; new whisky, $1 and $1.25 per gallon; Port and Sherry wine, $1.25 per gallon; California wine, $1.25 per gallon; wines in bottles, 40c.

Machine Oils, Fish Oil, Lard Oil and Neatsfoot Oil, and Headlight Oil and Castor Oil.

Fish oil, per gallon, 70c; Neatsfoot oil, 80c per gallon; Lard oil, 70c per gallon; Machine oil, dark, 20c per gallon; Golden, 30c per gallon; Castor oil, $1.75 per gallon; Headlight oil, 12c per gallon.

Tobaccos and Cigars, Plug Tobacco, Smoking Tobacco and Fine Cut.

Bull Dog plug tobacco, 40c; Durham plug, 50c; Perfection plug, 35c; Hiawatha plug, 30c; Knights of Labor plug, 30c; Sweet Heart plug, 50c per pound. Fine cut, 25c, 50c; best, 75c per pound. Mr. John Gloeckle, the mail carrier, is enjoying the vacation decreed him by Uncle Sam.

Judge O'Rourke decreed Nancy V. Long a judgment for $247.68 against Alice Whetsell et al.

Mrs. George DeWald will entertain the ladies of the L'Orphelin society at her home to-morrow afternoon.

Charley Bartine, of Bijou fame, was in the city yesterday. He now owns a circus, and exhibits at Sheldon, to-day.

Cashier Barney Rehnen, of A. C. Trentman's wholesale house, is at his desk again after a pleasant summer jaunt.

John Kintz, a driver of one of the French brewery delivery wagons, was severely injured in a runaway accident yesterday.

Those who love opera should see it to-night. Don't wait for any other opera company, as "a bird in hand is worth two flying."

The receipts of the festival at the Reformed Orphan's Home were $800, and the collections at the Lutheran mission feast Sunday were $900.

Mr. M. Frank returned from the east Saturday, and the Bee Hive will be bright with new goods from the eastern markets in a day or two.

On motion of Hon. Robert Lowry, Mr. Henry J. Smith was yesterday admitted to practice law in this county. Judge O'Rourke entered the decree.

Judge O'Rourke this morning divorced Dora Bowen from John Bowen and Tunis Striker from Emma Striker. Their troubles have been aired in THE SENTINEL.

A well known gentleman of the city witnessed the performance of "Francois" by the MacCollin Opera Co., a few days ago, and pronounces it a truly grand production.

Miss Esther VanHorn has instituted proceedings in Esquire Harding's court to compel Samuel McGinnis to assume parental responsibilities. McGinnis secured a continuance.

Gerding Bros. have instituted civil suit before Esquire Hays to compel Logan and Hartman to pay for a horse they drove to death. If the matter is not settled the young men will be indicted.

Judge O'Rourke yesterday dismissed the suits of John Sullivan vs. the city; Daniel Ridley vs. Almira Wells; Robert Romey vs. Heegan heirs; state vs. John Stein; Virgin Salt company vs. B. W. Skelton et al.

The Owl club excursion to Warsaw this morning was not such a success as their first one. Less than a car load of tourists composed the party, but they will have a good time. Spiegel's band went with them.

Varney's charming opera, "The Musketeers," will be presented at the Temple to-night by the MacCollin Opera Co. The cast is very strong, and is assisted by a chorus and ensemble of thirty-five voices.

The Business Men's Exchange will meet again to-night to complete consideration of the by-laws of the People's Natural Gas and Supply Company. The directors will, in all probability, be named Monday night.

James Wilding is getting signatures to a petition asking the council to repeal the ordinance requiring a 4-inch tire on vehicles of 3,000 pound capacity. Mr. Wilding finds that the city violates the ordinance with its hose carts.

The MacCollin Opera Company came in at noon from Lafayette. Most of the people have been heretofore seen to advantage in Fort Wayne, and the indications are that their business here will be profitable, as it certainly will be artistic.

John M. Hengsteller, aged thirty-eight years, died of typhoid fever this morning at his home, No. 525, Hanna street. He was formerly employed at the Bass foundry. The German military association will have charge of his funeral Thursday next.

Hon. T. P. Keator tells us that at Wheeling, West Virginia, gas is piped forty-two miles with the greatest success, and new factories and iron mills are constantly coming in. Steubenville, Ohio, and Bellaire, also pipe it in. At East Liverpool, Ohio, the big factories have used natural gas for twelve years, and the flow is as strong as ever. Fremont, Ohio, pipes gas in sixty miles and is securing new industries daily.

Downing, Wayne; David McCrory, Cedar Creek; Louis Gerardot, Jefferson; Geo. W. Henderson, Cedar Creek.

George N. Torrence, of Philadelphia, who is president of the Western Construction Company, is negotiating for the construction of an air line railroad from Detroit, Mich., to St. Louis, Mo. He is promised substantial aid along the line, and it is expected that Fort Wayne will be asked to vote a subsidy of at least $200,000 to secure the road, and this may be more desirable than to see the line run fifteen miles north of us. An official of the line passed through the city on the Wabash fast train last evening, on his way to St. Louis.

The Great Cut Continues.

Never before has our trade continued as brisk during the dull months of July and August. The reason is easily told.

Never quite have we attempted

Such an Unmerciful Cut of Prices as Now!

Our new stores, 73, 75 and 77 Calhoun street, which were to be ready for occupancy by October 1st will be delayed perhaps a few weeks longer than we anticipate, by reason of certain changes in the plans.

Peter Nusbaum, the foreman at Centlivre's brewery, has returned from his trip to Chicago.

The railroads through this city are doing a larger business than they have ever done before.

Henry Boseker, the traveling agent for the Olds works, went north this morning on a business trip.

Tickets for the biennial conclave, Sir Knights A. O. U. W., have been placed on sale at A. S. Barrett's, 4 Aveline block, very cheap.

Cappa's seventh regiment band, of New York, passed through this city today en route to San Francisco. They give a concert at Chicago to-morrow.

Fifteen car loads of steel rails from the Cleveland rolling mills were yesterday transferred from the Nickel Plate to the Grand Rapids and Indiana railroad. They went to Mackinaw, Mich.

Major Anderson, the railroad evangelist, who is devoted to the reformation and conversion of railroad employes, uses this beautiful figure in some of his speeches :"The only hope a community has of a future existence is the bands of steel on which the coach of salvation rides, laden with the product of different sections. It is the railroad which saves a village from a hell of stagnation in financial and commercial industries and bears it to the heaven where the buzz of the saw, the wheels of machinery, and the sound of the anvil is music divine."

Next Friday, the officers of the Maumee Valley Monumental Association, together with a number of distinguished Ohio people, possibly ex-President Hayes will come to view the historic spots in and about this city with a view to having congress purchase one of the sites to erect thereon a monument or memorial hall. The visitors will be tendered a reception on Friday evening by the Business Men's Exchange, and a committee, consisting of Hon. J. B. White, Mayor C. F. Muhler, Col. D. N. Foster, Mr. P. A. Randall, Judge A. A. Chapin and Mr. Frank Alderman were appointed last evening to arrange a program for the party.

I herewith acknowledge the receipt of the Grand parlor organ, presented by Sam, Pete & Max, Indiana's greatest clothiers, having held the lucky 35, entitling me thereto.

CONSULTATION AND EXAMINATION FREE

Whenever it is known that Dr. Fruth is stopping at a place, whether in the North, South, East or West, crowds gather to consult him, and it is not to be wondered at, when it is remembered that in diagnosing a disease he never asks a question, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess, and Dr. Fruth's diagnostic powers have created wonder throughout the country.

Dr. Fruth, the celebrated specialist; of New York, is now at the Robinson house. He can be consulted at his private parlor, Tuesday and Wednesday, from 9 a. m. to 10 p. m.

Call on Mrs. Kratzsch, at 114 Calhoun street, for millinery and fancy goods. Remember the new location. The latest fall styles are just received and that we deem it a pleasure to show goods. 6-5t

AN AWFUL HORROR.

The Burning of a Theatre at Exeter, England, in Which 140 Persons Perish in the Flames.

LONDON, Sept. 6.—The victims by the burning of the Theatre Royal at Exeter, last night, were mostly working people. As soon as the flames were extinguished a large force of men began searching for bodies. The stairway leading to the gallery was literally packed with bodies, while at the head of the stairs there were scores of others piled one on the other. The unfortunate victims had rushed to the door when the alarm was given, but found the stairway blocked, and all means of escape shut off.

In a short time the flames had reached them, and they suffered a horrible death. There were pitiful scenes in the burned theater this morning, as friends and relatives of the supposed victims awaited the recovery of the bodies. In many cases, fathers and mothers both perished and numerous children are thus left without the means of support. Several bodies were burned so that only a small cinder remained. The number of persons severely injured is sixty. It is feared the death list will reach one hundred and forty.

JAY GOULD.

It is Thought that He will Gain Control of Mackay's Commercial Cable.

NEW YORK, Sept. 6.—There are now several good reasons for believing that Jay Gould will acquire, within a very short time, not only the telegraph, but Mr. Mackay's commercial cable, as well as the thousands of miles of land lines that Mr. Mackay practically owns. Negotiations leading to the union between the Gould and Mackay interests have been in progress for some time, conducted by Messrs. Gould and Mackay, personally, whenever Mr. Mackay has been in New York, and in his absence, by S. L. M. Barlow, of counsel for Mr. Mackay, and Mr. Green.

WILL TAKE HIS SHOES.

Mr. Samuel Spencer Will Succeed Garrett as President of the Baltimore and Ohio.

BALTIMORE, Md., Sept. 6.—The Baltimore *American* says: "The question as to who shall succeed President Garrett is settled. Mr. John King, jr., who was looked upon favorably, cannot take the position because he is virtually a trustee of the Erie road, as well as its president. The man whom the syndicate have settled upon as possessing all the requirements for the place is Mr. Samuel Spencer, the present first vice-president of the Baltimore and Ohio road.

Cutting Railroad Rates.

CHICAGO, Ill., Sept. 6.—The Wabash railway yesterday announced the rate of $6 between Chicago and Kansas City, a cut of $6.50, the regular established rate being $12.50. The cut was brought about by the trouble over the harvest excursion rates. The Burlington will follow to-day with the same figure and the Alton and Rock Island will no doubt take some action.

The Blue and Gray.

EVANSVILLE, Ind., Sept. 6.—The reunion of the Blue and the Gray will be held here from September 20 to 24 inclusive. Some of the distinguished ex-confederate and ex-union generals have promised to come, as well as prominent lesser officers. The governors of Indiana, Illinois, Kentucky, Tennessee and Georgia, with their staffs, are also expected.

Not Dead Yet.

CHATTANOOGA, Tenn., Sept. 6.—Now comes the news that one Gamble, a prominent citizen of Anniston, Ala., has just returned from an extended visit in the city of Mexico. While there he met Marsh T. Polk on the street and talked with him. Polk is the defaulting state treasurer, who was thought to have been dead for several years.

Death of Dr. Walker.

EVANSVILLE, Ind., Sept. 6.—Dr. Geo. B. Walker, a physician known to the profession all over the union, died here at 2 a. m, from the effects of a surgical operation. He was in his eightieth year and had practiced here for fifty-two years. He was a member of several prominent medical societies.

STYLES OF

A BRAVE SHERIFF

Is Resisted in an Attempt to Arrest Four Desperadoes and He Shoots Them Down.

ST. LOUIS, Mo., Sept. 6.—A special from Albuquergue, N. M., says, the most complete single-handed shooting scrapes that ever occurred in this section transpired yesterday at Holbrook, A. T. Four desperadoes rode into that town yesterday morning from Tonto Basin, named Tom Blivens, Jake Cooper, Charles Roberts and Jim Blivens, all notorious cattle thieves.

Sheriff Owens, having warrants for their arrest, ran upon these men in a little shanty, adjoining the livery stable of Brown and Kinders. He demanded their surrender, which was answered by a volley of shots, but as the men emerged from the shanty, Sheriff Owens shot them down, one by one, killing all of them instantly except young Blivens, the brother of one of the men killed. For months these men have caused reign and terror in the territory of Arizona.

A FIRE PANIC

Among the Dwellers in a Row of New York Tenement Houses.

NEW YORK, Sept. 6.—About 1 o'clock this morning fire broke out in a tenement house on Fiftieth street, this city, causing a frightful panic in that and adjoining buildings. The gas was turned out, leaving the terror-stricken people to find their way out in the dark. With the help of the police and firemen this was accomplished without fatalities, though several of the firemen were seriously injured, and two or three inmates of the buildings were badly hurt.

Mrs. Cleveland Declines.

NEW YORK, Sept. 6.—Mrs. Cleveland has written a letter to the mayor and others declining the invitation to present the flag to be given to the fire department, basing her declination on her unwillingness to assume that she, as the wife of the president, ought to participate so prominently in a public ceremony in which he took no part.

"REJECTED."

That is the Seal the County Commissioners Put on the Spy Run Bridge Bids.

County Commissioners Brannan, Hartman and Gloyd resumed consideration of the proposals on the contemplated Spy Run avenue bridge this afternoon. The board unanimously rejected the bids for the iron work and deferred action on the abutment proposals until next week.

They need not again advertise for bids on the iron work, but will award the contract on any reasonable proposition submitted to them. This will probably be their course.

Sweet Lemons and Blood Oranges.

Strolling about the neighborhood of the Quincy Market my attention was attracted by the sign, "Blood Oranges, $7.50 a box," which decorated the exterior of an importer's shop. I had always supposed the blood orange was a freak of nature, to be found semi-occasionally, like a yellow firecracker in a pack of the Golden Dragon brand; but this, it seems, was a mistake, for the dealer assured me that the ruddy fruit was a distinct variety.

"It is artificially produced," he said, "by grafting an ordinary orange tree with the pomegranate. The result is an orange like any other, so far as flavor is concerned, but with red juice that is visible through the skin. It brings a slightly higher price, because it is regarded as a curiosity. The people of Sicily cultivate it mostly. Yes, there are one or two more kind of oranges I know of. The pine-apple orange, which has something of the pine-apple flavor, is finding its way into the market. Then there is the 'navel' orange, grown extensively in Southern California. It is considered particularly fine and sells at corresponding prices. The most curious thing about it is the astonishingly accurate imitation of the human umbilicus which ornaments the extremity farthest from the stem. It is from this peculiarity that the variety takes its name. These navel oranges, by the way, are of the feminine gender, and have no seeds at all.

"I had a few sweet lemons in stock the other day," added the dealer. "They are quite a rarity. People in this part of the world have poor taste in tropical fruit, anyway. They will always pay more for a red banana than for a yellow one, though the former is considered an inferior fruit where both are grown. The lime, too, is far more prized in tropical countries than the lemon, but Northerners think it is only good for pickling."—*Boston correspondence Iowa State Register.*

DR. PETER WOOD, of London, suggested twenty years ago the use of calcined oyster shells to arrest the growth of cancerous tumors, about half a teaspoonful once or twice a day in a little warm water. He again reports that his experience with it has been in several instances satisfactory, but insists that no benefit from it should be expected in less than three months.

FINE

HARPER & CO.

The Firms' Trustee Will Pay the Creditors Four Per Cent. on Their Claims.

CINCINNATI, Sept. 6.—From the report of J. H. Stewart, the trustee of E. L. Harper & Co., filed in the probate court, it appears that the firm held no real estate, and that the face value of the assets, consisting of stocks, bonds, notes, cash, etc., was $136,098; while the appraised value was $8,610. The other assets were book accounts of the face value of $1,171,733, appraised at $94,131, making the total appraised value of the assets of $103,202. The total direct liabilities are $1,462,744. The indirect liabilities as indorsers are $1,692,073. Among the debts is one of $358,000 from E. L. Harper, and it appears that this firm indorsed for Harper's other firms. The firm of E. L. Harper & Co. was an iron commission firm. The showing would give creditors about 4 per cent. on their claims.

Prisoners Before the Bar of Justice Begging for Clemency—Some of Them Get It.

Yesterday afternoon Judge O'Rourke set aside the jury verdict of a jail sentence and fine against John Kelly, the young man who murderously assaulted old Carl Wolf, of New Haven, with a stone. The youth has not served an hour of his former sentence, and is not likely to in view of the court's good feeling, although nine of the jurymen who convicted him, at first voted for three years imprisonment. Mr. Kelly is fortunate, and it is hoped he will profit by his experience, because the court may not always look on his punishment as excessive.

James Hartnett was this morning indicted by the grand jury for the theft of books and valuables from the office of J. M. Robinson. The poor fellow made an eloquent plea in his own defense, but it did not save him, and Judge O'Rourke sentenced him to one year in the penitentiary. Hartnett is a newspaper writer, and will be recalled as the man employed by Nelson & Morse to write the expose of John Spice, who was then county superintendent of the poor. He is friendless, and a wreck from liquor, with no one to mourn his fate.

Frank Merriweather was indicted for petit larceny. He threw himself on the mercy of the court, and Judge O'Rourke withheld sentence.

Frank Kannada and George Mertz were indicted for robbing Fred Winter of $20, but have not had a trial yet.

SAFE BONDS.

County Treasurer Mowrer and His Deputies Duly Installed.

Yesterday the County Board of Commissioners, Messrs. Hartman, Brannan and Gloyd, approved the bond of County Treasurer Mowrer in the sum of $300,000, with the solid sureties heretofore published in THE SENTINEL.

Mr. Mowrer at once took the oath of office, and is now duly installed in charge of the county funds, with a convenient box of cigars for his callers and friends.

His pleasant and courteous deputies, Mr. Cass Hunter and Mr. Tom Greer, jr., at once filed their bonds with Treasurer Mowrer, in the sum of $50,000 each, and are doing honors behind the desk.

Mr. Hunter's bond is signed by L. P. Hunter, J. C. Hunter, Frank Greenwell, N. C. Glazier, D. B. Andrews, John Dalman, Thomas Greer, Charles McCulloch, Preston Chapman, Robert Romey, Luther Greenwell, Fred C. Boltz, Jerome D. Gloyd, Henry Hartman, Sam. Miller, Andrew F. Glutting.

The bondsmen for Mr. Greer are as follows: Thos. Greer, sr., John Dalman, John Beighler, D. A. Robinson, Edward Kinerk, William Kinerk, John Ferguson, George Ranner, David Welbaumn, Jacob Lintlag, Andrew P. Glutting, Daniel Kelley, Charles Dalman, Preston Chapman, George H. Viberg, L. C. Hunter, William Spencer, George Buskirk.

The documents, as can be seen, are sufficient, and quite complimentary to the integrity of the young men.

THE MOST SCIENTIFIC AND SUCCESSFUL BLOOD PURIFIER. Superior to quinine. Rev. Wm. Lucas, Rector Grace church, Kewanna, O., writes: "I need not endorse Kaskine as you will see by what you claim, an excellent article. It is pure, with none of its bad effects. Mrs. Lucas had a serious form of malaria, and was confined to her bed for months. Kaskine had her up and around in a few days, and in a short time cured her."

Living in the malaria districts of Maryland I became a victim of all the forms of malarial fever. I drugged myself with quinine and other remedies without avail. I was greatly relieved when I heard of Kaskine. Its curative powers were a medical revelation to me. It cured me and I have not had a return of the trouble.—Prof. C. D. Hurd, B. S., Asst. Chemist, Maryland Agricultural College.

Letters from these and other persons, giving full details, will be sent on application.

Kaskine can be taken without any special medical advice. $1 per bottle. Sold by druggists, or sent by mail, on receipt of price.

THE NATURAL GAS PROJECT.

The commendable zeal of the gentlemen who are most active in forwarding the project to organize a "People's Natural Gas and Supply Company," has thus far been rewarded by a stock subscription of less than $50,000. This is a very small proportion of the $400,000 absolutely required to insure the success and consummation of the ends we all so devoutly sought to accomplish—that is, the furnishing of a natural gas fuel to the industries and people of Fort Wayne at a price reasonably low to consumers and justly profitable to the capital invested.

The original idea was to make the company a general or popular affair, inviting everyone to invest in the corporation, that its blessings might be two-fold—first, in insuring us cheap fuel, second, in guaranteeing a safe profit to the stockholders.

Realizing the impossibility of interesting sufficient local capital to form the corporation, the heaviest supporters of the project, at a meeting of the Business Men's exchange, last night, evinced a disposition to eliminate from the by-laws read by Judge Chapin, the restrictions as to the profits and surplus of the company, with a view, as they said, of inviting foreign capitalists to invest their money in the proposed organization.

It will be seen at a glance that if the profits and surplus of the company are not limited and restricted, every safe-guard for the insurance of a cheap gas fuel is wiped out.

In view of the hardships encountered by the committee in soliciting a stock subscription of $40,000, it is fair to presume that not much more than $100,000 in all can be raised in Fort Wayne. The remaining $300,000, if secured, must come from abroad.

With these facts before us, and the situation is placed fairly, THE SENTINEL can see no reason why it is not the wisest plan to invite foreign companies to undertake, altogether, the task of piping and supplying Fort Wayne with natural gas.

The citizens would be just as much at the mercy of a foreign company holding a controlling interest in an unrestricted so-called local company as it would be at the hands of an outside corporation holding every dollar of stock.

Is it not more advisable, anyway, to invite capital from abroad into Fort Wayne, leaving the home money market free to operate in the building up and fostering of local industries? It certainly is not desirable to tie up all the available money in Fort Wayne in a gas company, because it will deprive us of the elements of progress and prevent the people from reaping the benefits of any boom natural gas would give us.

These observations are worthy of serious consideration.

One of the most prodigious engineering projects now on the tapis is that for tunneling the Rocky Mountains under Gray's Peak, which rises no less than 14,441 feet above the level of the sea. It is stated that 4,441 feet below the peak, by tunneling from east to west for 25,000 feet direct communication would be opened between the valleys on the American slope and the one on the Pacific side. This would shorten the distance between Denver in Colorado and Salt Lake City in Utah, and consequently the distance between the Missouri River, say at St. Louis, and San Francisco, nearly 300 miles, and there would be little more required in the way of ascending or descending or tunneling mountains. Part of the work has already been accomplished. The country from the Missouri to the foot of the Rockies rises gradually in rolling prairie until an elevation is reached of 5,200 feet above the sea level. The Rockies themselves rise at various places to a height exceeding 11,000 feet. Of the twenty most famous passes only seven are below 10,000 feet, while five are upwards of 12,000, and one is 14,000 feet. The point from which it is proposed to tunnel is sixty miles west from Denver, and although one of the highest peaks, it is by far the narrowest in the great backbone of the American continent.

ALMANZO CARROLL, to whom a monument has just been erected at Reims, had a stormy career. He was adventurous from the moment that he left St. Cyr until he was shot by Emile de Girardin, who swore on the tomb of his adversary never to fight a duel again. When fighting in Spain in the Foreign Liberal Legion, which was composed of Frenchmen and Italians, the Colonel, an Italian, thought he saw the French water, and said so. "You lie," retorted Carrel, and charged with his men like a maniac. A year afterward he was tried by court-martial and was about to throw a chair at the President, when he was carried out of the room by force.

MORNING ECHOES.

What Was Seen and Heard by the Sentinel Scribe During an Early Morning Stroll.

The Base works took several new men into their employ yesterday.

The men in the shops are beginning to complain again of the hot weather.

George Harrison is now stroker for the the stationary engine at the Pittsburg car shops.

John Gribben has been promoted to the position of an axle turner at the Pittsburg car shops.

The Base works shipped a high speed engine and a large band saw mill to California this morning.

Gust Hockins, who is employed in the office of the Kerr Murray foundry, is at Chicago spending his vacation.

Master Mechanic Bradley, of the Grand Rapids road, was in the city yesterday and a visitor at the Base works.

A. Beach, the machine hand in the Pittsburg car shops, who has been sick for several days, returned to work this morning.

John Phepps, the conductor on the Pittsburg, Fort Wayne and Chicago road, is detained at home by the sickness of his children.

John Little, an employe in the Olds works, who has been sick with typhoid fever for some time, has recovered and taken his position again.

Jacob Hass, of the Base foundry, who was married at Logansport, Ind., last week to one of the young ladies of that place, has returned with his bride, and taken his position in the works again.

Alexander Steel, an employe of the Bucyrus Manufacturing company of Bucyrus, O., was in the city for a few hours to-day, on his way west, and visited his cousin, Henry Kelker, at the Pittsburg boiler shops.

Ernest Geerker, an employe in the Pittsburg car shops, while loading a car with car wheels, this morning, had his thumb smashed and was compelled to quit work. He will be detained from duty by the injured member for a few days.

J. C. Kensill, of the Pittsburg shops, who is a member of the city council, was off duty yesterday afternoon attending to councilmanic duties. He was one of the committee appointed by the mayor to make estimates for the Griffith street sewer.

Cyrus Burket, a machinist in the Base works, has gone to Evansville, Ind., and will wed one of the fair young ladies of that city before his return. Evansville is his old home and his frequent visits to that place are now clearly understood by the boys. He will return this week with his bride.

Last night while Will Linderman, one of the boys in the Base foundry, was at work in the new moulding rooms, his overalls took fire by coming in contact with the lamp, and would have resulted in a serious accident, had not Harry Hayes, another employe, turned the hose on him and given him a good soaking with water.

J. H. Sloan, the genial and popular clerk at the Pittsburg machine shops, still insists that the machinists can beat the boiler makers in a fair, square game of base ball. He says the boiler makers won their victory more by good luck than by good playing and if the game is repeated, as it will be, the machinists will score an overwhelming victory and simply crush the boiler makers out of existence. "Jim" stands by the machinists and is confident of their ability to win.

"What has become of your shop items?" said an employe of the Pittsburg shops this morning. "Why, nothing has become of them," answered our reporter. "They are still in THE SENTINEL every evening with a new head, however, and this is probably the reason you have not noticed them. People never change their heads. They carry the same old head all the way through life and if it happens to be a poor one they can't change it, but THE SENTINEL can change its head to this column whenever it wants to. 'A rose by any other name will smell as sweet,' so this column will remain the same, although it may have have a different head."

THE SENTINEL is meeting with favor among the employes in the various industries of the city and many of them are handing us their names as subscribers. THE SENTINEL reporter will not solicit subscription while he is on his rounds in the collection of news, but if any of the employes desire to hand him their names as subscribers he will gladly jot them down on his note book and see that they get THE SENTINEL by the time they return to their homes in the evening. In this connection we will also say that any item of personal news about yourself, your family, your friends or your neighbors, will be gladly published if handed to our reporter, while he is on his rounds, or sent to the office.

IT WON'T BAKE BREAD.—In other words, Hood's Sarsaparilla will not do impossibilities. Its proprietors tell plainly what it has done, submit proofs from sources of unquestioned reliability, and ask you frankly if you are suffering from any disease or affection caused or promoted by impure blood or low state of the system, to try Hood's Sarsaparilla. The experience of others is sufficient assurance that you will not be disappointed in the result.

"George, what is the best 10c. cigar in the city?" "The B. & O. of course."

LINO-LEUMS.

This comparatively new, exceedingly durable, and justly popular floor covering, we have greatly reduced in price. We show a Fine Assortment of New Designs.

Handsome Lamps.

The Lamp season is just opening. We sold about 5,000 Lamps last year. We want to beat that record during the year to come. We probably sell more lamps than all the other stores in Fort Wayne combined. It is because we cut prices so very low, and because we keep the largest and handsomest stock. We have purchased some very expensive ones to be used as wedding presents.

Fine Lace Curtains.

Elegant New Styles in Nottingham, Irish Point, French Guipure, Applique, and Brussels Net. Prices very much lower than last season. We are keeping a much Larger and Finer stock of these goods than ever before.

Baby Carriages.

We shall keep a full assortment of these goods all through the fall and winter. We are to-day showing Fifty Different Styles. Our Prices cannot be matched.

Window Shades.

We make and put them up a little prompter, a little better and a little cheaper than anybody else.

HE IS WITH US!

DR. FRUTH, OF NEW YORK,

The Celebrated specialist in CHRONIC DISEASES and DISEASES of the EYE and EAR, by request of many friends and patients, has decided to visit Fort Wayne for a few days only. He can be consulted FREE at his private parlors in the

ROBINSON HOUSE UNTIL SEPTEMBER 15TH.

Patients Received From 9 A. M. to 10 P. M. Each Day.

CONSULTATION AND EXAMINATION FREE.

FOUR DAYS ONLY.

Whenever it is known that Dr. Fruth is stopping at a place, whether in the north, south, east or west crowds gather to consult him, and it is not to be wondered at when it is remembered that in diagnosing a disease he never asks a question, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess and Dr. Fruth's diagnostic powers have created wonder throughout the country.

EYE AND EAR

A SPECIALTY.

It is well known by all intelligent observers that it is impossible for any person, no matter how highly endowed by nature or acquirements, to become thoroughly conversant with all the divisions of the science of medicine. Nearly all who have obtained distinction in medicine have made some special department their life work, being fitted therefor by natural adaptation or selection, special education and experience. The doctors having devoted several years to the special study of this class of diseases in hospitals and general practice, and having the most recent and improved instruments for finding out diseased conditions in the organs of the body, they propose to devote the whole of their time to the practice of these specialties.

They adopt the following plan, which is peculiar to hospitals and is not or never has been the practice of country doctors, viz: They carefully trace the symptoms of the patient, ascertain the condition of the internal organs, examine the eye, ear and throat by the most recent and improved instruments and methods, a list of which they carefully record in their register for future reference. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and knowing the changes, they check them with specific remedies and place the patient on the high road to recovery. When sick people consult them, they readily tell them whether they can cure or help them or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will point out the most skeptical. By an examination they will convince any one of the nature and extent of their disease, amount of danger to life and chance of a perfect cure, believing that science is truth, and truth is mighty and will prevail. When known and knowing the disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of chronic diseases. The astonishing cures and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of the disease by natural remedies. Let those given up by others call for examination. They have successfully treated the following diseases since their arrival in this state: Eye and ear diseases, chronic diarrhœa, chronic inflammation of the womb, chronic inflammation of the bladder, painful or irregular menstruation, fever sores and ulcers, incontinence of urine, tape worms, crooked limbs and enlarged joints, spinal curvature, club foot, hip joint disease, white swelling, discharging abscesses, sterility or barrenness, nervousness and general debility, prostration and impotency, disease of the kidneys and bladder, leucorrhœa or whites, blotches and pimples, skin diseases, dyspepsia, constipation, dropsy, cancer, epileptic fits, erysipelas, fever, goitre, inflammation, neuralgia, heart disease, headache, piles, hysteria, syphilis, St. Vitus dance, chronic dysentery, enlarged tonsils, sweet and sour, fistula in ano, hernia or rupture, ovarian tumors, paralysis, palsy, prolapsus uteri, bronchitis, asthma, catarrh, scrofula, consumption, chronic cough, female weakness, spermatorrhœa, rheumatism, liver disease, etc.

TO NERVOUS MEN

Who have become victims of solitary vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with full confidence.

DR. FRUTH.

After years of experience, has discovered the surest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, consequences of self-abuse, confusion of ideas, palpitation of the heart, timidity, trembling, dizziness of sight or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach or bowels, those terrible disorders arising from the solitary habits of youth—and secret habits, blighting the most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

TO MIDDLE AGED MEN.

There are many from the age of thirty to sixty who are troubled with frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, weakening the system in a manner the patient can not account for; on an examination of the urinary deposits a ropy sediment will be found and sometimes small particles of albumen will appear, or the color will be of a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases and a healthy restoration of the genito-urinary organs.

PRIVATE DISEASES.

Blood poison, venereal taint, ghest, stricture, seminal emissions, loss of sexual power, weakness of sexual organs, want of desire in male or female, whether from imprudent habits of youth or sexual habits immature years, or any cause that debilitates the sexual functions, speedily and perfectly cured. Consultation free and strictly confidential. Absolute cures guaranteed.

DISEASES OF WOMEN.

We have a special department thoroughly organized and devoted exclusively to the treatment of the diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases and we get few which have not baffled the skill of all the home physicians have the benefit of the full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two thirds of our patients being ladies, old, young, married, single, rich and poor. Our methods are entirely free from objectionable features of the general practitioner, namely, "local treatment." We seldom find it necessary. We prescribe remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

EPILEPSY, OR FITS

Positively cured by a new and never-failing method.

FREE EXAMINATION OF THE URINE.

Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine, which will receive a careful chemical and microscopical examination. Persons ruined in health by unlearned pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately.

REMARKABLE CURES

Perfected in old cases which have been neglected or unskillfully treated. No expert means or failures. Curable cases guaranteed

That's So

Relief is certain for the despondent feelings of the dyspeptic, the constipated habit of the sedentary, the headaches of the nervous and bilious, by the simple use of Simmons Liver Regulator,—easy to take, not nauseating or disgusting, not more bitter than a glass of beer and far more grateful. It is no intoxicating beverage, but it tones up the system, settles the stomach, assists digestion, regulates the bowels, and stimulates the Liver. Take it once and and you will discard all other medicines.

"I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent that Simmons Liver Regulator has. I would advise all who are similarly afflicted to give it a trial as it seems the only thing that never fails to relieve." P. M. JANNEY, Minneapolis, Minn.

The certainty with which this remedy acts has astonished the Medical Profession and secured for itself unbounded praise. Its virtues consist in being so gentle a cathartic, tonic and alterative, that in its operation it does not interrupt the usual duties of life, but acts so naturally that the system is not upset or afterwards constipated. It attacks all bilious disorders and sluggishness of the Liver; is harmless, and can be taken at any time without fear of injury.

"I have been a user of Simmons Liver Regulator for years, having made it my only family medicine. It is a sure, good and reliable medicine. My mother before me was very partial to it." Rev. Jas. M. ROLLINS, Pastor M. E. Church, Fairfield, Va.

Price $1. Sold by all Druggists. Prepared by J. H. Zeilin & Co., Philadelphia, Pa.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in wisely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove truly beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhœa, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, "hearing-down" sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovarian region accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedy, superior, and can produce only good results—being equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as the "change of life."

"Favorite Prescription," when used in connection with Dr. Pierce's Golden Medical Discovery, and occasional doses of Dr. Pierce's Purgative Pellets, "Little Liver Pills," cures Liver, Kidney and Bladder diseases. They combined are also unequaled as blood purifiers, and in curing all scrofulous humors from the worst to a common pimple.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

Fighting Fish.

The male stickleback is a prodigious warrior, and when he meets a rival of his own kind he engages with him at once in deadly warfare. Their battles, says Mr. Darwin, are at times desperate, for these puny combatants fasten tight on each other for several seconds, tumbling over and over again, until their strength is utterly exhausted. Bold and pugnacious as they are, however, it is only my lords who thus fiercely contend with one another. Their demure little mates remain always perfectly pacific, gentle, and even-tempered. With the roguish-tailed stickleback, the males while fighting swim round one another, biting and endeavoring to pierce each other's mailed skin with their raised lateral spines or lances. Small as they are, their bite is very severe, and inflicts a deadly wound upon their antagonist; and Mr. Noel Humphreys remarks that they use their lateral spines with fierce effect, so that he has seen one brave stickleback during a stout battle rip up his opponent from end to end, till the vanquished hero sank to the bottom and died ingloriously. It is during the moment of battle, and just before and after it, that the colors of all fighting animals become invariably most intense. The reason is plain: battle is joined during the mating season, and "before the face of maidens and of dames;" and, as in human tournaments, the ladies stand by to applaud the conquerors and to reward their prowess. They are themselves the prize of the encounter they stimulate. Besides, the highest physical vigor and the highest excitement bring out the greatest beauty of both men and animals. The angrier you make a mandrill the more vividly tinted are his cheeks and callosities. The frilled lizards and flying dragoons glow with all the brightest colors of the rainbow when you tease or annoy them. The turkey-cock swells his crimson wattles and spreads his ruffled feathers to the utmost at sight of a rival or a mischievous boy. There is a little hot-tempered fish known as *Betta pugnax* and kept as a sort of domestic pet by the Siamese (much as the Christian English gentlemen of forty or fifty years since kept fighting cocks) to display its prowess for the edification of the Mongolian intelligence. "When in a state of quiet," says Cantor, "its dull colors present nothing remarkable; but if two be brought together, or if one sees its own image in a looking-glass the little creature becomes suddenly excited, the raised fins and the whole body shine with metallic colors of dazzling beauty, while the projected gill membrane, waving like a black frill round the throat, adds something of grotesqueness to the general appearance. In this state it makes repeated darts at its real or reflected antagonist. But both when taken out of each others sight, instantly becomes quiet." The fighting fishes, as the Siamese call them, are kept in globes like gold fish and fed from time to time with the larvæ or mosquitoes. The Siamese are as wild after their combats as the Malays are for cockfighting, and often stake large sums, or even the freedom of themselves and families, on the prowess and skill of a particular betta. The license to exhibit fish fights is farmed by government and brings in a considerable revenue to the king of Siam.—*The Cornhill Magazine.*

Syrup of Figs.

A Strange Mummy's Head.

A few days ago a well-known dealer in stamps and curios received from Ecuador the head of a South American Indians, which, from all that can be learned, is anywhere from 300 to 400 years old. The curious part of this cranium is the method which was used in its preservation. It had been cleanly severed from the body, and by means of a slit made in the back of the neck all the facial and cranium bones were removed. By what process is unknown. This done, the back of the neck is sewn up, the stitches being visible to the eye, a number of pieces of string run through the lips, and a stout piece of twine passed through the head. In some mysterious way the head was then compressed until it was no larger than any ordinary wax doll's head. The supposition is that then, by means of the cord through the top of the skull, the head was hung up in a vault or some other such place. At present there are only two of these curiosities in this country. The natives, by whom they are looked upon as a kind of god, are reluctant to part with them. The features of this one, which the *World* reporter examined closely, are well preserved and show no signs of decay. There is a luxuriant growth of long black hair on the head. The gentleman in whose possession it is said that he understood that this method was used only in the cases of chiefs or other notables.—*New York World.*

For Animals.

Mange, Distemper, Diarrhœa and worms in dogs quickly cured. Scratches, Sores, Galls, Bruises, Cuts or Wounds of any kind quickly and permanently healed by washing with the fluid. Dr. J. Hough, the distinguished Veterinary Surgeon, says: "I find Darbys Prophylactic Fluid all that it is represented. As a local application I believe it to be without an equal." For Colic and Scours it acts like magic.

Something About Corkscrews.

There seems to be nothing to say about a corkscrew. The corkscrew is ubiquitous and necessitous, but who ever stops to think of anything about the history or character of the cork extractor? Yet there is really an interesting article to be written about the little instrument. There are miles of corkscrews made every year. Yes, and a good many millions. It isn't generally known that the corkscrew is made in largest quantities in Newark, Jersey's metropolis; yet such is the case. There is one firm in Newark that beats the world at making and selling corkscrews. I got my information about the little utensil from one of the firm. It is a startling tale he told, and if it wasn't that he had the figures to back what he said, I should have thought his story was as crooked as the wire on the cork extractor he makes. In round numbers the re were 150,000,000 corkscrews made by this one Newark firm last year, or corkscrews enough for nearly every voter on the globe. If the corkscrews, which average three inches in length, that were made during the year 1886 could have been laid length to length, they would have reached from New York to San Francisco and then spanned the broad Pacific and touched the shores of Japan. That will give some idea of the number. If all these screws could have been melted into one big screw, some Colossus could have pulled the cork from the surface of the earth and set the geyser spouting and the volcanoes erupting from the interior of the globe. But this was only one firm, although the largest, it is true. Could all the corkscrews made last year be known there must have been enough manufactured to supply nearly every man, woman and child on this mundane sphere with one. To make the 150,000,000 of the Newark firm required seventy-five men simply for the twisting of the screws, to say nothing of the making of the wooden and other styles of handles. They worked steadily the year round at it.

One would hardly think that more than three or four varieties were required, but there are about forty varieties on the market.

The funniest of all the corkscrews is a left-handed one. The first one was made for a left-handed bar-keeper, and it suited so well that the Newark firm now keeps them constantly in stock. Another Newark firm makes 200,000 pocket corkscrews a year. The question naturally arises, what is done with them all? Lots of them are broken, of course. Large New York restaurants, like Delmonico's, the Brunswick, and the St. James, buy corkscrews direct from Newark, and get them by the hundreds at a time. It is no unusual thing for big hardware houses in Newark, Boston, Philadelphia, Pittsburg, Cincinnati, and big western cities to buy 10,000 corkscrews at a time.

FRUIT HOUSE PRICES FOR '87

Quite a change has taken place in a great many goods the last sixty days, the tendency being in most cases upwards. This is the case, especially in Coffee and Dried Fruits, Sugars, Teas, Syrups, Spices and Tobacco, have not advanced, but from indications they will. It will pay our customers to purchase liberally.

Sugars—White and Yellow.

Yellow C Sugar, 5½c. Standard A Sugar, 6¼c. Granulated Sugar, 7c. Powdered Sugar, 7c. Cut Loaf Sugar, 7c.

NO ADVANCE ON TEAS,

Yet they will not likely remain at such low prices in the face of the large advance on Coffee. We continue to maintain our prestige in the Tea trade. Our trade has grown immensely in that line. People have to longer to send off to purchase their Teas. In order to save money we keep up the plan of buying in large lots of the importers and re-selling direct to our customers at a small profit, thereby saving to our customers the intermediate profits of jobber and wholesale dealer—which is not less than 10 to 20c.

Good, 15c per pound; choice, 30c; best, 50c. Imperial tea—Green, good, 30c; best, 50c. Gunpowder tea, 30c; best, 50c. Oolong or Black tea, 20c, 30c; best, 50c; Japan tea, 20c, 30c; best, 50c. Above prices on teas are the lowest on record and the best teas are of the highest quality—no better anywhere—the other grades are good, sweet, drawing teas and will please the most fastidious tea drinkers. Just give them a trial and satisfy yourself.

Coffee—Rio, Java and Roasted.

Best Rio coffee, 20c, per pound; best roasted Rio, 24c per pound; German coffee, 26c per pound; Housekeepers' Choice, 28c per pound; Dannemiller's, 25c. per cent.

No. 9 East Main Street

Peter Nusbaum, the foreman at Centlivre's brewery, has returned from his trip to Chicago.

The railroads through this city are doing a larger business than they have ever done before.

Henry Boseker, the traveling agent for the Olds works, went north this morning on a business trip.

Tickets for the biennial conclave, Sir Knights A. O. U. W., have been placed on sale at A. S. Barrett's, 4 Aveline block, very cheap.

Cappa's seventh regiment band, of New York, passed through this city today en route to San Francisco. They give a concert at Chicago to-morrow.

Fifteen car loads of steel rails from the Cleveland rolling mills were yesterday transferred from the Nickel Plate to the Grand Rapids and Indiana railroad. They went to Mackinaw, Mich.

Major Anderson, the railroad evangelist, who is devoted to the reformation and conversion of railroad employes, uses this beautiful figure in some of his speeches: "The only hope a community has of a future existence is the bands of steel on which the coach of salvation rides, laden with the product of different sections. It is the railroad which saves a village from a hell of stagnation in financial and commercial industries and bears it to the heaven where the buzz of the saw, the wheels of machinery, and the sound of the anvil is music divine."

Next Friday, the officers of the Maumee Valley Monumental Association, together with a number of distinguished Ohio people, possibly ex-President Hayes will come to view the historic spots in and about this city with a view to having congress purchase one of the sites to erect thereon a monument or memorial hall. The visitors will be tendered a reception on Friday evening by the Business Men's Exchange, and a committee, consisting of Hon. J. B. White, Mayor C. F. Muhler, Col. D. N. Foster, Mr. P. A. Randall, Judge A. A. Chapin and Mr. Frank Alderman were appointed last evening to arrange a program for the party.

I herewith acknowledge the receipt of the Grand parlor organ, presented by Sam, Pete & Max, Indiana's greatest clothiers, having held the lucky 35, entitling me thereto.

CONSULTATION AND EXAMINATION FREE

Whenever it is known that Dr. Fruth is stopping at a place, whether in the North, South, East or West, crowds gather to consult him, and it is not to be wondered at, when it is remembered that in diagnosing a disease he never asks a question, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess, and Dr. Fruth's diagnostic powers have created wonder throughout the country.

Dr. Fruth, the celebrated specialist; of New York, is now at the Robinson house. He can be consulted at his private parlor, Tuesday and Wednesday, from 9 a. m. to 10 p. m.

Call on Mrs. Kratzsch, at 114 Calhoun street, for millinery and fancy goods. Remember the new location. The latest fall styles are just received and that we deem it a pleasure to show goods. 6-5t
